

Lesson Plan

Big Idea

As citizens we are called upon to take care of what we value. This includes what we create, how we preserve what we create, and what we value and therefore restore.

Lesson Overview

1. Students will learn about the collaboration that was needed to create our Capitol.
2. Students visit our state of Nebraska Capitol through the NET Virtual Tour while learning the purpose of having a state Capitol.
3. During the virtual tour they will note what impresses them and select a work to discuss.
4. Students learn that citizens collaborate and become part of a collaborative group.
5. Teacher will choose a collaborative project for the class.

Purpose

Students meet the people who created the Nebraska State Capitol. They examine how they worked together while becoming familiar with the stories, values, and beliefs that are Nebraskan's heritage. These lessons serve as the opening and closing to the Virtual Tour and focus on collaboration. The Virtual Tour can ignite a curious student to visit the Capitol as well as help them remember the importance of working together.

Essential Questions

1. How has art and architecture of the Nebraska Capitol told the stories of Nebraska?
2. How does art help us understand the lives of people across time, place, and cultures?
3. How does understanding the contexts, histories and traditions of art help us create, interpret, or value a work of art?
4. How does collaboration expand the creative process?
5. What conditions, attitudes, and behaviors support creative thinking and collaborative thinking?

Learning Objectives

The student will be able to:

1. Describe the personal value of selected work in the Virtual Tour and discuss why it is important.
2. Identify the importance of working with others who have different skills and interests than yourself.
3. Interpret the Collaboration Process through discussions and formation of a collaborative group.
4. Use the collaborative process to create works of art.
